CUSTOM PAPER SHOPPING BAGS

Differentiate your brand with a custom designed bag exclusive to you. Custom bags provide you with additional options - unique sizing and shapes, handle styles, paper substrates, laminations and colors. Let our packaging stylists elevate your look with customized packaging - bags, boxes, tissue and ribbon!

Step 1: Substrate - Select your material, do you want your bags printed on white or natural kraft? Would you rather art, enviro or beater dyed papers?

Step 2: Finish - Select your finish, there is matte, gloss or stock or custom roller embossed.

Step 3: Size - Measured in length x gusset x width, with gusset being the depth of the bag, you can choose a standard size or something unique to you and your products

Step 4: GSM- In the U.S. paper shopping bags are typically weighed in Grams per Square Meter (GSM). Some examples of weight are 157 GSM is light, 180 GSM is medium and 210 GSM Heavy. You can choose up to 250 GSM.

Step 5: Bag Color - Choose from a standard color or provide us with a PMS Color to match.

Step 6: Top - There are three types of bag tops: Straight, serrated or turn top. A turn top is folded over and glued and gives the bag a more finished look and sturdy construction.

Step 7: Handle - Select your handle style, color, length and material. Choose from a standard twisted paper handle, or a more high end rope, ribbon or woven flat handle. Rope handles commonly come in cotton waxed, polyester or Jute. Woven handles come in polyester and paper. Want to kick it up a notch? Add printing to a ribbon handle.

Step 8: Design - Tell us something about your design, number of colors, percentage of Ink coverage and whether there will be a hot stamp, emboss or deboss. With a custom bag you can print on not just the front and back but the interior, bottom board and interior turn top.

Step 9: Varnish - Spot ultraviolet varnish is a great way to make parts of your design, like your logo, pop.

FOUR COLOR CUSTOM SHIPPING BOXES

Step into a world of packaging brilliance with our Custom 4-Color Printed Shipping Boxes. Unveil your brand's true colors with our cutting-edge printing technology that brings logos, graphics, and designs to life in vivid detail. Versatile and available in various sizes, our boxes cater to your every shipping need. Experience the perfect blend of visual impact and functionality, all while championing eco-conscious choices.

Shipping boxes are made from 200# corrugated cardboard material. Structures are offered in B and E flute, which is sturdy enough for shipping safely, yet light enough to not add unnecessary bulk or an unattractive "ribbed" effect on the printing.

Boxes are uncoated white stock on the outside. Display mailers have white on the inside as well. Kraft paper or coated papers are not offered. Call for a quote and information on available sizes and styles.

Our Standard Box Color Program serves as a basis for creating a customized, coordinated packaging program in small quantities that's easy to understand. Although we can manufacture boxes to match just about any PMS color, our standard colors are designed to coordinate with many of our in stock bags. Unlike custom PMS matched colors, standard colors typically require smaller minimums and do not incur an ink charge. Choose from an assortment of colors available on white or natural kraft board, from smooth finish matte colors, elegant metallic shades, lustrous gloss hues and even textured finishes too. Please allow 4-6 weeks for delivery.
